

**GLOBAL SYN-TURF**  
GREENING PLANET EARTH

February, 26, 2015

To Whom It May Concern:

Global Syn-Turf has been doing business with ZeoFill since Nov 2012. ZeoFill was the first product we carried outside of our own manufactured lines. From the start, their product quality and customer service has been right on par with what our customers have come to expect.

Not only is ZeoFill the greatest pet odor neutralizer on the market, but also it is safe and organic. We all want the best option when it comes to protecting our furry friends. For us, ZeoFill is that option.

There might be other products out there that make similar claims, to our knowledge ZeoFill is simply the best, a natural one of a kind product that cannot be reproduced.

Sincerely,

Rachel Brady  
Marketing and Sales Manager
